SUMMARY

Frontend-leaning full-stack developer skilled in React, Node.js, and MongoDB, with hands-on experience building real-world apps from scratch. Graduated from NewTech Academy's intensive developer program, leading projects like a full-featured apartment rental platform with auth, responsive UI, and full CRUD. Passionate about clean UX, pragmatic engineering, and continuous learning. Ready to join a fast-moving dev team and contribute from day one.

PROJECTS

Rental Apartment Platform

- Built a full-stack platform with Firebase authentication, responsive UI (React + Tailwind), and MongoDB backend.
- Implemented full CRUD functionality and role-based access for landlords and tenants.

Python MP3 Downloader

- Developed an automation tool using Python and third-party APIs to download and convert video to audio.
